Rockets Misfires – Hamas & Islamic Jihad

The terrorist organizations in Gaza (Hamas and the Islamic Jihad) are deliberately shooting rockets indiscriminately to civilian areas in Israel , doing so from within populated areas in the Gaza strip and harming innocent lives – committing a triple war crime.
These terrorist organizations dedicate themselves to the murder of **innocent civilians** by the use of all means. The rocket misfires indicate the systemic immorality of these organizations.
In past conflicts, we have seen a failure rate as high as 20%.

Rockets Misfires – Hamas & Islamic Jihad

Main messages

Since the beginning of the war, the Terrorist organizations in Gaza have fired more than 10,726 rockets towards Israel. 1,338 rockets have landed within Gaza, some hitting civilian structures such as the Shifaa, Al-Ahli Ma'madani, Rantisi and Turkish Hospitals, causing many casualties.

Hamas commits a double war crime as it fires rockets **towards civilians** within **civil populated areas**, *and* also uses the misfires to falsely blame Israel.

Hamas systematically **uses the local population to** promote false propaganda, while the IDF investigates baseless accusations of harm to civilians.
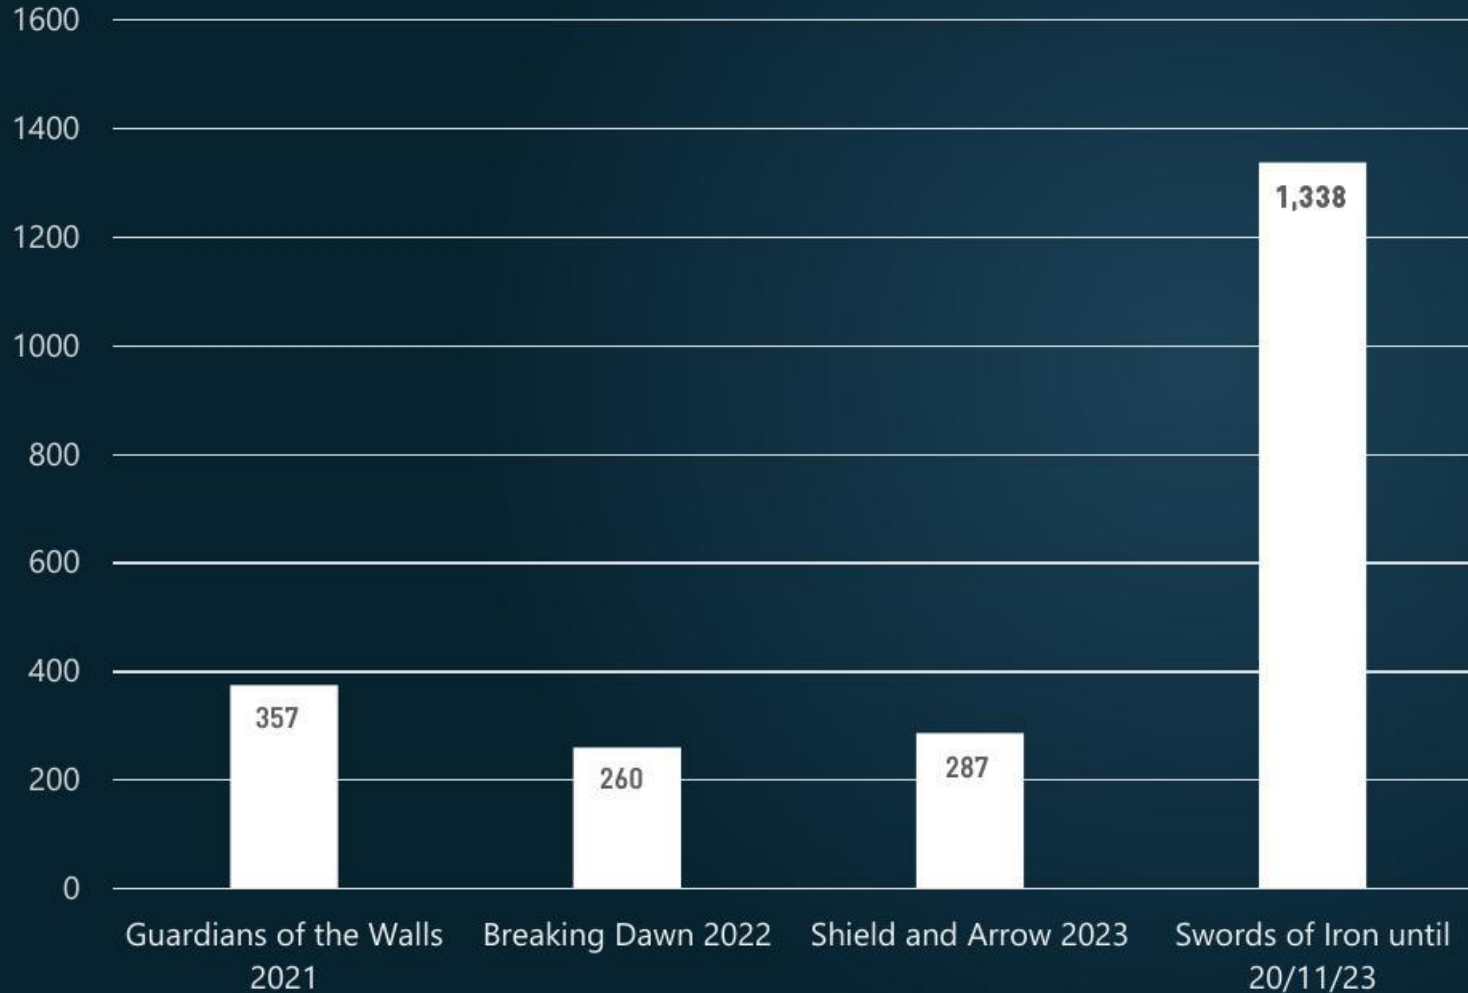

Despite false reports, the investigation done by the IDF proves that there was no IDF strike on Al-Ahli Ma'madani hospital. Recordings of Hamas operatives were released as well as a picture of the barrage.
This is but **one** example of the lies Hamas has spread since the beginning of the 'Swords of Iron' war.

The IDF is operating in-line with International law to eliminate the threats on Israeli civilians and making efforts in minimizing damage on innocent lives, while Hamas exploits Palestinians as 'Human Shields'.
