DAY 235 OF THE WAR

LAST UPDATE 28/05/2024, 18:00 ISRAEL TIME

THE IDF IS CONTINUING TO TRANSFER TONS OF HUMANITARIAN AID TO NORTHERN GAZA

### International:

- Hamas fire a barrage of 10 rockets at central Israel (26 May)
- Hezbollah's ongoing violations of UNSCR 1701 have rendered it effectively null and void
- Israel is open to a diplomatic solution that will enable the residents of the north to return home in peace and security
- If diplomatic efforts fail, we are ready to act militarily in order to remove the threat of Hezbollah from our border
- The U.S. continued support of Israel at this time is a sign of our strong partnership and mutual values. The IDF is prepared to take necessary actions to defend Israeli civilians and values the strong relationship and cooperation with the United States Armed Forces.

### IDF Goals and Actions:

The IDF is acting against any threats posed on all fronts and is prepared to intensify operations by air, land, and sea to eliminate the threat to Israeli civilians and to ensure regional stability.

1. The dismantling of Hamas' military and administrative capabilities should not only be the goal of the IDF and Israel but of the whole world.
2. Returning all the hostages home is a core priority for the IDF. The IDF is not only fighting for Israel's right to exist but also ensuring Hamas' inability to expand to the rest of the Western world.

DAY 235 OF THE WAR

THE IDF IS CONTINUING TO TRANSFER TONS OF HUMANITARIAN AID TO NORTHERN GAZA

- Hezbollah's military activity south of the Litani River in Lebanon, including the use and storage of armaments, is a clear violation of UN Security Council Resolution 1701. The IDF will continue to defend Israel's borders from any threat. Meanwhile, the people of Lebanon must prevent Nasrallah from dragging the entire state into war. While the country is under great economic suffering, Hezbollah abuses the people of Lebanon as human shields, especially in areas in southern Lebanon where civilian homes are used as military posts and weapon storage.

The IDF currently has three operational objectives regarding Hezbollah's threat:

- **Defensive:** The IDF has been operating along the northern border to protect the area from enemy fire, such as anti-tank missiles, to prevent the Hezbollah terrorists from entering Israel.
- **Offensive:** The IDF has been targeting Hezbollah's forces and weakening its military capabilities by carrying out precise, responsive strikes against Hezbollah's infrastructure and terrorist cells. So far, the IDF has struck 150+ terrorist cells and killed ~370 terrorists and commanders.
- **Readiness Level:** Despite the preference for a diplomatic solution to Hezbollah's threat, the IDF has deployed three divisions since Oct. 7 to its northern command and has been conducting a series of training and exercises in preparation for war.
